

6<sup>th</sup> June 2019

Dear Parents / Carers,

Welcome back for our final half term this academic year. Hopefully the weather will improve and we can get outdoors to make the most of our school grounds. At this time of year it is particularly important that the children remember to bring their water bottles into school, and wear sunhats and suntan cream when necessary. We have lots of exciting learning and activities planned for the children, including the whole school focus on the continent of Asia and our topic on "Castles", during which we have a planned visit to Lowther Castle. We also have our Sports' Day and Key Stage One clubs to look forward to. As you can see, it will be another busy and exciting half term!

Thank you for your ongoing support.

Mrs Bond and Mrs Clement

<p>English</p> 	<p>During this half term, the children will have lots of opportunities to use their skills to develop the quality of their writing. In particular we will use our Castle's topic to inspire our writing of information texts like booklets and pop-up books.</p> <p>As the children prepare to move to year 2, we will focus on certain aspects of grammar too. We will look at how to add the prefix 'un' and the suffixes ing, est, er, ed to words. In addition, the Year 1 children will be undertaking their phonics screening check this half term. Our phonics sessions will focus on practising and consolidating Phases 3, 4 and 5. The children thoroughly enjoy and work very well during these lessons.</p>
<p>Mathematics</p> 	<p>This half term, the children will continue their work on multiplication (equal groups) and division (sharing), using lots of practical resources. We will then move on to look at fractions of shapes and amounts, primarily concentrating on halves.</p> <p>Linking in with our Beebot computing sessions, we will be learning to use the language related to position, direction and movement, for example, right, left, half turn, quarter turn, between, above etc.</p> <p>We will also learn how to tell the time to the hour and half past the hour. In relation to this, we will use language associated with the passing of time and sequencing events. Finally, we will learn the values of different coins and notes. We will add small amounts together and look at different ways of making values.</p>
<p>Science</p> 	<p>In science, this half term, we will be completing our topic about plants, minibeasts and food chains before moving onto to our new topic focusing on "Materials". This will link to our "Castles" topic, and we will be investigating the properties of materials in order to build some model castles. The children will be exploring which materials are the most waterproof to line a moat, and which are the strongest to build the walls.</p>
<p>IT and Computing</p> 	<p>The focus of IT lessons, this half term, will be using search engines to find information related to our topics. We will be using the Times Tables Rock Stars website to practise multiplication facts on <a href="https://play.ttrockstars.com">https://play.ttrockstars.com</a> (the children already have login details for this). The children will also continue to develop their keyboard and mouse skills.</p>

<p>History</p> 	<p>Our history unit links in with our topic on "Castles". The children will be learning about the features of Norman and Medieval castles and thinking about what life might have been like for those living in a castle, including the roles and jobs they had. The children will also be learning about the Battle of Hastings and the Bayeux Tapestry.</p>
<p>Geography</p> 	<p>In geography, we will be learning about land features and thinking about why castles were built on hills. We will be learning about the four countries in the UK, thinking about the castles in the capital cities.</p> <p>During Asia Theme Week, Key Stage One will be learning about the countries in Asia, in addition to finding out about the climate, food and customs. We have some special visitors coming into school to lead dancing and cooking workshops with the children.</p>
<p>Art and Design Technology</p> 	<p>Our art sessions support our topics and we will be creating pictures in the style of the Bayeux tapestry. We will also be sketching and drawing castles. In design technology sessions, the children will be designing, making and evaluating their own model castles, using a variety of materials and tools safely.</p> <p>We will also be creating artwork inspired by our Asian theme week, using a range of skills, and materials.</p>
<p>Music</p> 	<p>Our music programme, this half term, is entitled "Reflect, rewind and replay". The children will be listening and appraising different genres of music, using technical vocabulary and developing their musical skills.</p> <p>Linked to our Castles topic, the children will also be listening to medieval instruments and songs.</p>
<p>PE</p> 	<p>The children will have two P.E. sessions a week, one of which may be indoors if the weather is poor. If the weather is fine, the children will be developing their tennis skills. We will be learning summer sports and team games such as rounders and athletics, and are also looking forward to Sports' Day this half term.</p>
<p>RE</p> 	<p>Our RE theme, this half term, focuses on an Enquiry Question, "Is there a God?" We will be exploring this in relation to both the Christian and Muslim faiths.</p>
<p>PSHEE</p>	<p>Mrs Stearn will be teaching the KIDSAFE programme to the children. They will be learning how to keep themselves safe using NSPCC materials through age appropriate songs, stories and discussions.</p>
<p>Citizenship and Global Awareness</p>	<p>This half term, the children will think about the similarities and differences in people from different cultures, learning about lifestyles, traditions and customs that are unfamiliar to us. We will also be recapping the five school values that we have thought about this year (being Resilient, Resourceful, Reflective, Respectful and Responsible).</p>
<p>Educational Visits</p>	<p>This half term, we will be taking the children to Kendal Castle and Lowther Castle to look at sources of evidence, follow maps and explore the grounds.</p>
<p>Homework Ideas</p> 	<p>Here are some ideas to support your child at home:</p> <ul style="list-style-type: none"> <li>• Daily reading (school books or home books are fine).</li> <li>• Writing (shopping lists, invitations, letters, labels, stories, diaries).</li> <li>• Shopping (using coins and getting change).</li> <li>• Telling the time.</li> <li>• Researching about Castles and making a project book.</li> <li>• Learning how to tie shoelaces.</li> </ul>
